- ExpressJS
- JavaScript
- PostgreSql
- Prisma
- HTML5
- CSS3
- jQuery
- SASS
- Tailwind CSS
- Jest
- Webpack
- Agile
- Scrum
- Git

WORK EXPERIENCE

Full-stack Developer   *Toronto, Ontario*
Tecnita Inc.   March 2023 – Aug 2023 (Freelance)

- ❖ Developing an in-house staffing software solution using React, Redux, Redux toolkit and typescript for the frontend.
- ❖ Implementing backend functionalities using Node and Express.js, and seamlessly integrating with a PostgreSQL database through Prisma ORM for efficient data management.
- ❖ Collaborating closely with cross-functional teams to comprehensively understand their requirements, facilitating seamless communication throughout the software development life cycle.
- ❖ Crafting modular and reusable React components, delivering an intuitive and user-friendly interface for the recruitment team.

UI Developer   *Bangalore, India*
Coverstack Technologies Ltd.   August 2020 – January 2023 (Full-time)
                                                             August 2023 – Present (Contract)

- ❖ Responsible for building a web application for a Health and Term insurance platform using Vue.js, resulting in a remarkable 3x increase in conversion rates from quote to proposal.
- ❖ Led the complete rewrite of a legacy codebase for Motor Insurance product, using React, Redux, Redux toolkit, and TypeScript for enhanced performance and maintainability.
- ❖ Created various visual elements and components across multiple products, consistently delivering high-quality code utilizing HTML5, CSS3 and SASS.
- ❖ Collaborated effectively with the design team to conduct design reviews and worked closely with the quality assurance team to ensure the delivery of an optimal and error-free product.
- ❖ Successfully converted existing jQuery implementations to vanilla JavaScript, reducing the dependency on jQuery and other libraries while achieving a 98% page performance score in Google Page Speed.
- ❖ Played a pivotal role in optimizing web vitals to significantly enhance page performance, contributing to an improved user experience.

Frontend Developer   *Mumbai, India*
Margo Networks Pvt. Ltd.   November 2017 – May 2020 (Full-time)

- ❖ Designed and implemented new dashboards for clients and internal operations using Angular and ngRx for state management, enhancing data visualization.
- ❖ Spearheaded the transformation of client dashboards by leveraging Angular and ReactJS, resulting in a remarkable 50% reduction in feature delivery time and quicker bug fixes.
- ❖ Responsible for overseeing sprint planning, leading scrum calls, and developing epics and stories, thereby ensuring the efficient delivery of each module in an agile development environment.
- ❖ Collaborate closely with product team members to brainstorm, prototype, and create proof of concepts for new features, thereby contributing to innovative solutions and enhancing product offerings.

Software Developer   *Mumbai, India*
HDFC Red   January 2016 – November 2017 (Full-time)

- ❖ Led the development and ongoing maintenance of HDFC Red's desktop and mobile websites, ensuring optimal user experiences across platforms.
- ❖ Designed and implemented a Progressive Web App (PWA) using Angular 2 to enhance the mobile website's accessibility and performance.
- ❖ Collaborated closely with backend teams to define RESTful APIs and seamlessly integrated them into the front-end codebase, ensuring robust functionality and data retrieval.

Frontend Developer   *Mumbai, India*
InterviewAir.com   October 2014 –December 2015 (Full-time)

- ❖ Responsible for Development and maintenance of the Monster Instinct website.
- ❖ Development and maintenance of Video Profile and Lookup features using HDFVR flash.

EDUCATION

- ❖ Masters in Computer Application (MCA) – University of Pune, India.
- ❖ Bachelors in Computer Application (BCA) - University of Pune, India.
